FY 2003 Programs in Nevada

The USDA Forest Service (FS) and the Department of the Interior (DOI) agencies are in the third year of successful implementation of National Fire Plan (NFP) activities. The NFP was developed in August 2000, following a landmark wildland fire season, with the intent of actively responding to severe wildland fires and their impacts to communities while assuring sufficient firefighting capacity for the future. The NFP addresses five key points: Firefighting, Rehabilitation, Hazardous Fuels Reduction, Community Assistance, and Accountability.

(dollars displayed in thousands)

USDA / DOI	Actual 2002	**Estimated 2003
Preparedness	25,732	30,244
Operations		
Suppression*		
Hazardous Fuel	7,468	9,615
Rehabilitation	18,428	5,037
Fire Facilities	15	
Research and Development	0	
Joint Fire Sciences	0	0
Forest Health Management	4	
State Fire Assistance	1,828	2,851
Volunteer Fire Assistance /Rural Fire Assistance	984	917
Economic Action Program	44	76
TOTAL	54,505	48,740

* Suppression costs for Nevada totaled \$36.2 million in 2002.

** Actual funding will be displayed in the 2003 Annual Performance Report.

Program Highlights

- Fire crews for the Bureau of Land Management, USDA Forest Service, and residents of Alpine County created defensible space in the highly wooded subdivision of Markleeville, CA, south of Lake Tahoe.
- Through a National Fire Plan grant, the Bureau of Land Management is sponsoring three Student Conservation Association Fire Education Corp teams in 2003. These teams perform individual homeowner wildland fire risk assessments and work with homeowners to implement mitigation measures.
- The Bureau of Land Management has placed a position with the Nevada Association of Counties to ensure collaboration, coordination, and cooperation in the implementation of the National Fire Plan.

Preparedness and Facilities

- Preparedness Resources
 - ## USDA Forest Service will maintain preparedness resources at the 2002 level.
 - ## Department of the Interior will have a total of 467 firefighting personnel, 59 engines, 3 helicopters, 7 water/foam tenders, 3 dozers, 7 air tankers, 1 helicopter, and 4 other aircraft.

Rehabilitation

- Rehabilitation consists of 1) immediate actions to reduce threats to public safety, property and natural and cultural resources, and 2) long-term actions to help restore healthy ecosystems and replace infrastructure damaged by fire.
- DOI funding will cover ecological stabilization, reforestation (seeding, cultural protection invasive species, contour tree felling, monitoring).

- USDA Forest Service funding will be used to improve overall watershed condition and restore severely burned forests and rangelands. Projects include reforestation, watershed restoration, road and trail rehabilitation, fish and wildlife habitat restoration, planting and seeding and preventing invasive plants.

Hazardous Fuels Reduction

- Approximately 35,000 acres are planned for hazardous fuels treatment by federal agencies; an estimated 11,700 acres will be treated in the wildland urban interface.
- An estimated \$9.6 million will be spent on hazardous fuels treatment work.

Community Assistance

- Rural Fire Assistance (DOI): Estimated funding – \$785,000
91 rural/volunteer fire departments will receive assistance.
- State Fire Assistance (FS): Estimated funding – \$2.8 million
- Volunteer Fire Assistance Program (FS): Estimated funding – \$132,000
- Economic Action Program (FS): Estimated funding – \$76,000

Accountability

- DOI and USDA Forest Service developed a uniform set of performance measures to assess program effectiveness for FY 2003 and FY 2004 program measurement.
- DOI and USDA Forest Service, with input from the National Association of State Foresters, developed action plans for nearly all of the 23 tasks in the Implementation Plan for the 10-Year Comprehensive Strategy. The State Foresters and their partners are continuing to develop field guidance for fuels reduction projects.
- DOI and USDA Forest Service developed the National Fire Plan Operations and Reporting System (NFPORS), a common data collection and reporting system for gathering project plans and accomplishments.
